

# Spring One Term Year 2

## English

This term we will be exploring themes around character's emotions and writing descriptions around settings. We will be reading 'The Winter's Child and Tin Forest'. We will be writing internal monologues and analysing vocabulary.

We are reading...

## Maths

This term we will be focusing on money. We will be finding different coins to make the same amount. We will also explore the concept of multiplication and division. We will be using our knowledge of known timestables to work out calculations

## Science

### Living Things

We will learn what a habitat is and that it provides the animal with food, water and shelter. We will be exploring the different habitats around the world from forest to grasslands and from mountain slopes to deserts

## Geography

We will be comparing Redbridge and Bangladesh. We will need to know where these places are on a map and we will become tourist guides to make brochures to invite visitors.

## RE

This term we will explore how Churches and Mosques are important to believers. We will be looking at the symbols and objects in churches and mosques and why these are important in Islamic faith.

## ART

We will be recreating work in the style of Andy Goldsworthy analysing sculpture and other design techniques. We will evaluate and analyse creative works using the language of art, craft and design and begin to understand the historical and cultural development of their art forms.

## Music

We will be exploring soundscapes from around the world. This links with our science topic of living things, using our knowledge of animals in their habitats to compose a short piece of music whilst exploring tempo and pace.

## PSHE

Our topic this term is Goals and Dreams. We will identify our achievements, setting realistic targets for ourselves. We will collaboratively solve problems and work towards end goals, demonstrating successful teamwork!

## Computing

We are going to be using and creating Pictograms. The children will learn to understand the terminology associated with the Internet and searching, so they can gain a better understanding of searching the Internet.

## PE

This term's topic is circuits! We will be exploring how repetition in movements helps to keep our bodies healthy. We will be using a series of controlled movements, like jumping and pivoting to increase our heart beat and blood flow.
